Pediatric Dental Initiative

What will your legacy be?

As you prepare your long-term financial and state plans, we wish to thank you for considering Pediatric Dental Initiative and our innovative non-profit model of treatment of severe tooth decay under anesthesia and oral health education and information. We know that the decisions you are making are of the most personal nature and that they represent your vision for continuing your compassion into the future. A gift to PDI is a heartfelt and enduring way to express your commitment to our children's future and your desire for healthy community.

Our work is so crucial to the countless children who suffer each day from severe tooth decay. Planned gifts help make our work possible. Thank you for making a better life for children part of your legacy.

For more information please contact our Fund Development Department 707-837-8833 or PDI Executive Director at 707-837-8882.
